Hawaii Heard from About the Revolution.

PROTEST AGAINST ANNEXATION.

The Inhabitants of the Island Can Take Care of Themselves, So Says the Minister of the Interior of the Deposed Government—An Appeal Made to the United States Government Through a Private Source, and a Promise Made of Further Details of the Revolution.

ST. LOUIS, Feb. 9.—A letter has been received here from John F. Colburn, minister of the interior of Hawaii, in which he outlines the position of the deposed queen, of whom he is a supporter. The letter is addressed to Mr. J. H. Ganz, of this city, whose wife is an aunt of Mr. Colburn, and is as follows:

HONOLULU, OAHU, HAWAII ISLANDS, Wednesday, Jan. 18, 1893.

Mr. J. H. Ganz, St. Louis, Mo.:

DEAR SIR—In view of the circumstances that surround the situation of this, our Hawaiian kingdom, I take the opportunity of writing you this letter, trusting with your ability and influence with some of the leading statesmen of your liberal American country, you can help to place the situation of affairs of this country in such an impartial manner to them that the Hawaiian queen, Liliuokalani, her government and her native population can receive such a hearing from your government that the American nation will cause to be restored the queen to her throne, the government to her power and the Hawaiian native population to their rights.

On Thursday, Jan. 12, 1893, the legislature sitting in session, brought in a resolution of lack of confidence against her majesty's cabinet, which consisted of G. H. Wilcox, minister of the interior; R. C. Jones, minister of finance; W. P. Robinson, minister of foreign affairs; and Cecil Brown, attorney general, and was carried by the constitutional majority of twenty-five members of the legislature out of a house of forty-eight elective members. This cabinet that was voted out belonged to a party called the Reform party, and the same party caused a revolution in the country, June 30, 1887. Upon their having been voted out they retired and sent their resignations to her majesty, the queen. She accepted them and on the next day, Friday, Jan. 18, 1893, she summoned and appointed the following gentlemen as her cabinet: Samuel Parker, minister of foreign affairs; William H. Cornwell, minister of finance; John F. Colburn, minister of the interior; Arthur P. Peterson, attorney general. Mr. Parker and myself were the native Hawaiians in the cabinet, the second and third named the foreign members.

Immediately upon appointment, we repaired to the legislative assembly and reported to them that it had pleased her majesty to appoint us as her cabinet. Those of the legislature that were present and the population to the number of about 1,000 who had gathered there, received us with applause. We took our seats, and after going through the business of the house, it was adjourned. The next meeting, Saturday, Jan. 14, the day that had been previously set apart as the day to prorogue the legislature, we presented ourselves again, and after going through the business of the house, it adjourned to meet at the prorogation house at 12 o'clock.

I may mention here that on Friday and Saturday, the days that we had attended the legislature, the party to which this cabinet had belonged—the Reform party—were so dissatisfied and hostile over their defeat that on both days they refused to attend the legislature, and did not have courtesy to attend the prorogation.

While waiting for the hour of 12 to approach, I accidentally heard that the queen proposed to promulgate a new constitution. I immediately sought an interview with my colleagues and notified them that if the queen intended to act in such an arbitrary manner I would resign. They answered that they were willing to do the same thing, and we decided that if the queen intended to carry into effect any such idea we would all advise her not to do so. I at once repaired to the place of the opposition, the Reform party, and told them what I had heard and what we had concluded to do. The leaders of the party advised us strongly not to resign as it would then give the queen an opportunity to appoint others who would be too willing to sign a new constitution. We followed their advice, and they assured us that if any conflict came between the queen and us, her cabinet, the community would give us their support to resist anything of this nature.

At 12 o'clock noon the legislature was prorogued; and we repaired to the palace to meet the queen. She then and there told us to sign a document purporting to be a new constitution. We told her plainly we would not accede to her request and advised her to abandon the idea. She was very determined at first, but afterward yielded and gave up. She came out and openly declared to the Hawaiian people that she could not give them a new constitution and told them to endure their grievances. The crowd dispersed, and on the next day the leader of the Reform party met us and made a proposition to us, viz: "That owing to the queen's revolutionary actions in wanting to promulgate a new constitution, we should de-throne her and declare a provisional government." Our answer was that we would give them an answer later on.

In the meantime we, the cabinet, summoned six of the most responsible and conservative business men of the city and also the diplomatic corps. They met us, excepting J. T. Stephens, envoy extraordinary and minister plenipotentiary. We discussed the situation and agreed that

the queen was at first ill-advised, but as she had abandoned the project we should not depose her and declare a provisional government. We notified the leaders of this defunct and malcontented party that we would not agree to the proposition. At the same time we issued a proclamation and scattered it all over town and delivered it to the diplomatic corps, that the queen had abandoned the idea, and asking one and all to accept the assurances given in the proclamation by the queen and cabinet.

This party was not satisfied with this, but they, with the assistance of the American minister and the troops of the United States ship Boston, enlisted a number of men to the extent of 200, and aided by the American troops, took possession and declared by proclamation a provisional government, contrary to the constitution now in force and contrary to the rights of 100,000 people, the population of this country. The cabinet notified the American minister of what had happened, and asked him to assist this duly authorized government to suppress this revolt, or, if he did not want to do that, then to remove the United States troops on board the Boston, and we, the government, could do it ourselves. When we told him we had 700 men under arms and were equal to the situation, his reply was that he acknowledged the provisional government and would support it.

We, the government, came to the conclusion, as we did not wish to come into conflict with the United States troops to yield under protest. The queen and her cabinet are at present removed under protest, pending a hearing before the United States. This action on the part of the United States government is degrading. He has upheld a mob and does so against the wishes of the aborigines of this country, who are capable of taking care of themselves. The provisional government has put the country under martial law. They are dispatching a steamer now to carry a report to Washington. They are sending ambassadors to Washington. We have asked that the steamer take representatives so that both sides of the case can be heard, and they refuse. We will send them later. We trust it will not be too late.

The Hawaiian people are waiting for the loss of their country. Can not America, "the land of the free and the home of the brave," undo this great wrong that she, by her troops and ambassador, assisted to do? Will you use your influence for us? Act promptly, and may God assist you and help you. Yours with consideration and respect,

JOHN F. COLBURN,

Minister of the Interior.

The letter has been forwarded to President Harrison by Mr. Ganz, who, in his letter of presentation, says:

ST. LOUIS, Feb. 8.

To the President of the United States and Members of Congress:

As a citizen of the United States I humbly petition you to listen to a few words that have come to me from the afflicted and distressed people of Honolulu city, of Oahu, Hawaiian islands, a petition begging you to not accede to any of the demands or wishes laid before you by the commissioners sent to Washington from Honolulu. In the letter received from Mr. John F. Colburn, minister of the interior of the Hawaiian islands, is contained a touching appeal to the American patriot and loyalist to which your hearts will respond with heartfelt sympathy.

Your sense of justice will lead you to stop and consider with your usual wisdom and consideration before upholding such an uprising and usurpation by foreigners in a small kingdom which, during many years has proven itself not only self-sustaining, but also progressive in the highest degree in art, science and religion. This letter breathes the sentiments of natives, a Christian, law abiding, intelligent, refined people, begging you not to accede to any of the demands or requests of the commissioners of the provisional government now at Washington and upheld and sanctioned by the American minister plenipotentiary, J. T. Stevens, who has without authority from the American government taken upon himself a high-handed measure in trying to overthrow a peaceful government. I ask your kind consideration of this matter, so grievous to the natives of Honolulu.

In the newspaper articles as seen from time to time concerning the unhappy and disturbed condition of the government of the city of Honolulu, and the kingdom of the Hawaiian islands, but one side of the picture has been presented and that is the usurpers. This revolt, this attempt at a revolution emanated from the foreigners who have descended from the early missionaries, but, who in their desire for gain, for wealth and power, and to live in luxury which was unknown to their ancestors, have determined to take the reins of government in their own hands and planted their heel upon the gentle, loving, unobtrusive natives.

How have the natives or their queen interfered with their rights as citizens that they should now turn and rend the hand that held out to their fathers before them everything which Christian and loving hearts could bestow?

I respectfully submit the latter from J. F. Colburn, minister of the interior. I feel assurance that the United States will not be instrumental in overturning the government of a weak, inoffensive people, against their wishes. Such a high-handed undertaking would be revolting to every patriotic sentiment that actuates her citizens in their intercourse with others. A love of liberty, humanity and justice is in them born, and it will be impossible for them to uphold intrigue, rascality and usurpation by a few for their own personal interests and aggrandizement.

Hoping that you, personally, will give Mr. John F. Colburn's appeal for redress of grievances your careful consideration, and that you will lend your influence and use your power to righting wrongs committed against a weak and friendly nation who imploringly begs you to do so through her minister, I am, dear sir, with great respect, yours truly,

J. H. GANZ.

MIDNIGHT WRECK.

A Casualty Caused by Cold Weather.

PASSENGER TRAIN DERAILED.

One Person Killed and Thirty-One Injured, Some of Whom May Die—The Delayed Passengers Suffer from the Extreme Cold—A Corpse Cremated—An Embankment Prevents What Might Have Been an Appalling Loss of Life.

PANA, Ills., Feb. 9.—A terrible wreck occurred near here about midnight Tuesday night, the limited passenger train on the Big Four road being derailed and tumbling into a ditch. A broken rail, due to contraction owing to the intense cold, caused the disaster. Four or five persons were killed and several others injured, but their names are not obtainable at present. After lodging in the ditch the wreck took fire and all the cars were speedily consumed, a fierce, frosty wind fanning the flames.

The passengers suffered intensely from the cold for a time, but soon found shelter in adjacent farmhouses. The financial loss is heavy.

The train consisted of eight coaches, including baggage and mail cars. The accident occurred on a small trestle spanning the creek. The engine passed over in safety, but all the rest of the train left the rails and immediately caught fire. The mail car, which was next to the engine, was the first to ignite and split completely in two. The express car and the two following day coaches were thrown from the trestle at least thirty feet.

The remainder of the cars were saved by an embankment on the opposite side of the ditch, otherwise the death roll would have been horrible.

The passengers in the day coaches were rescued with great difficulty by the trainmen and uninjured passengers.

The following is a list of the killed and injured:

Charles Ressler, baggageman, instantly killed.

Samuel O. Doolittle, Madison, Ind., express messenger; badly injured.

C. H. Barr, St. Louis, express messenger; badly injured.

A. M. Travers, Cincinnati; slightly bruised.

Samuel Cohen, Houston; hurt about the head.

Fox, bruised about the head and shoulders.

Mrs. Armstrong, Birmingham, Ind.; internal injuries.

Mail Agents Conway and DeWitt, hurt about the head.

Mrs. Laughlin, Cleveland; slightly injured.

Charles Conlin, Alma, Kan.; cut in head.

Mrs. Carroll, Alma, Kan.; bruised and cut.

Charles H. Fox, Tiffin; internal injuries.

H. M. Ibbertson, St. Louis; injured in back and head.

James M. Nichols, Mattoon, Ills.; badly bruised.

Mrs. Neal, residence unknown; probably fatally injured.

Matthew J. Banner, Pawtucket, R. I.; slightly injured.

W. T. Muse, St. Louis; hand cut and back injured.

Several other passengers whose names could not be learned were slightly injured.

All the bedding in the sleeper was utilized for the comfort and warmth of the wounded women and children.

Baggageman Ressler was pinioned between the mass of trunks and burned to death in sight of the trainmen and passengers, who were unable to rescue him.

Mrs. Laughlin was traveling with the corpse of her husband, which was in the baggage car. The corpse was cremated. Mrs. Laughlin's four children were slightly injured. The weather was bitter cold and the wounded suffered greatly from exposure in addition to their injuries.

The Ohio and Mississippi railroad sent a special train of two cars to the wreck and brought the injured passengers to Pana where they were carried into the St. James hotel. They were properly cared for by physicians of Pana and Tower Hill.

TWO YEARS AROUND THE POLE.

Lieutenant Peary Will Start the Last o June—To Lecture in Europe.

SPRINGFIELD, Mass., Feb. 9.—Lieutenant R. E. Peary said in an interview Tuesday that his second Arctic expedition would set out from Philadelphia the last of June and would go by ship to Greenland, thence north by sledges. He expects to reach a point further north than has ever been attained. Surveys of the north coast of Greenland, further discoveries, geological and ethnological studies are the objects of the trip. Mrs. Peary has not decided whether she will go or not.

About ten men will constitute the party and they expect to be gone two years. The equipment will be about the same as for the last expedition, including, however, more and better instruments for surveying. The cost of the expedition will be about \$25,000, and this sum the lieutenant is trying to raise by lectures. Peary will go to Europe May 1 and will address scientific bodies in England, Scotland, Germany and Austria and France.

Freight Jumps the Track.

MOORE'S HILL, Ind., Feb. 9.—A part of the east night freight, No. 44, jumped the track at the foot of the grade near Dillsboro, yesterday, delaying Ohio and Mississippi traffic several hours.

STREET CAR STRIKE.

The Discharge of Two Conductors Causing Serious Trouble.

WHEELING, Feb. 9.—The street car strike is becoming more serious, and warrants were sworn out yesterday afternoon for several of the strikers. A car going south last night, when about 200 yards north of the barns on Jacob street, was bombarded with bricks and stones. There were about fifty people in the mob and they rushed into the car where there were two passengers at the time, and one of them, a German, was cut on the side of the face by a blow from a club, and the other passenger was also buried.

The motorman was struck by a club and had his arm almost broken. Both he and the conductor were compelled to desert the car. There were three operators on the car at the time, and they went before a justice yesterday morning and swore out warrants for the arrest of several of the mob whom they claimed they have recognized. All day yesterday the tracks were guarded by policemen, and the cars were run with new men without interference. The cause of the strike was the discharge of two conductors on complaint of passengers. Public sympathy is mainly against the strikers.

POWERFUL LABOR ORGANIZATION.

An Entirely New Order Being Formed in Chicago.

CHICAGO, Feb. 9.—At a meeting held here yesterday of representatives of the various labor organizations the first steps were taken toward the formation of what will prove, if the ideas of its founders are carried out, the most powerful labor organization in America. The object in view is the establishment of an entirely new order, which shall include every railroad employe in the country.

Yesterday's meeting was devoted to a general discussion of the best methods of securing the end in view. V. Debbs, S. Kellier and L. W. Rogers were appointed a committee on constitution and will report at today's meeting, when the movement is expected to take definite shape.

FIGHTING SOON EXPECTED.

Trouble Has Again Broken Out Along the Rio Grande.

NEW YORK, Feb. 9.—The Herald's correspondent at Artega telegraphs that trouble along the Rio Grande has broken out again, and that the government police have disarmed one hundred federalists who were about to make a raid along the Rio Grande, near Santa Ana. The Castilistas fortified the town. Federal General Tavares and Banos Cassul are trying to reconcile and unite the different factions in opposition to the Castilistas.

A guard is still maintained along the Rio Grande. Caudilla, a federal chief, noted for his cruelty, has arrived at Tigre with arms, and fighting with the Castilistas, is expected along the Uruguayan frontier.

TWO FIRES.

Kietsburg, Illinois, Suffers Severely from a Conflagration.

KIETSBURG, Feb. 9.—A fire started at 4 o'clock yesterday morning, destroying Hendrickson's shoe store, Churchill's dry goods store, Allen Hall's grocery store and Mrs. M. E. Wade's building. The loss is \$25,000; fully insured.

Another fire destroyed the new round house of the Central Iowa Railway company, together with six locomotives. The loss is about \$50,000. The round house had been occupied only about ten days.

Zante Shaken Daily.

ATHENS, Feb. 9.—The Island of Zante is shaken several times daily by earthquakes. The king will remain there some time to superintend the building of huts for the homeless and to assist the relief committee in Zante City. The queen is still traveling from village to village, giving generously to the impoverished and trying to encourage the panic-stricken. The roads over which she travels are crowded with frightened children. Two Italian men-of-war have taken supplies to Zante.

The Frog Slipped.

SHELBYVILLE, Ind., Feb. 9.—Yesterday afternoon as the local freight going west was running into the yard limits at Prescott, a frog slipped and the engine derailed between the wheels, throwing a rail fully thirty feet. Every wheel on the train left the tracks and but one car upset. The regular crew worked hard and the train was on its way in less than two hours, with but one car short.

Doings of a Desperado.

MUSKOGEE, I. T., Feb. 9.—News has reached here of the killing of Deputy Marshals Rusk, Bruner and Knight near Tahlequah by Bill Pigeon, an Indian desperado. Pigeon lives in a fortified house in the Cherokee nation, and his capture has been attempted many times without success. Ned Christy, another member of the gang, was killed a short time ago by these marshals.

Stock Trains Wrecked.

OSCEOLA, Ia., Feb. 9.—Two stock trains were wrecked by a collision on the Chicago, Burlington and Quincy railroad at Bush siding, five miles east of Osceola about 8 o'clock yesterday morning. Several persons were seriously hurt and were at once removed to Chariton for treatment. Several cars were demolished, and much of the stock was killed and crippled.

Early Morning Blaze.

DES MOINES, Feb. 9.—Fire at Scranton, Ia., at 6 o'clock yesterday morning, destroyed Cox & Stierwalt's hardware store, Foster's drug store, the Farmers' and Merchants' bank and Gibson's hardware store. Loss, \$15,000; insurance \$7,000.

FLOODS ABATING.

Ruin and Devastation Revealed in Queensland.

THE LOSS OF LIFE VERY HEAVY.

It is Impossible at Present to Approximate the Extent of the Damage Done, as Communication Has Not Yet Been Established—The Government Trying to Relieve the Distressed.

BRISBANE, Feb. 9.—The ruin and desolation revealed as the flood abates is beyond anything caused by the last great flood in 1890. The suburbs of the city have been almost annihilated. South of the river the city is still submerged.

In the higher parts of the city, from which the water is receding, many buildings have collapsed, and most of the others are damaged beyond hope of repairs. The loss in Queensland, on which stand the government offices, postoffice, principal banks, newspaper buildings and the opera house, has been enormous. The buildings in the street were two-thirds submerged.

The stocks of all the shops were ruined and vast quantities of valuable documents were rendered illegible. The Victoria bridge, at the northern end of the street, was swept away, as well as the railway bridge which connected Brisbane with the suburb Undercooplilly.

The provisional towns have suffered as severely as has Brisbane. Every hour brings fresh news of villages submerged, houses wrecked, lives lost and bridges swept away. The loss of life has been very heavy, but no approximate estimate of the number drowned is yet possible. The government is doing its utmost to help the sufferers from the floods, and has sent torpedo boats with food and clothing up the river to the interior towns.

CHOLERA IN MARSEILLES.

Forty-Four People Die in That City in One Day.

PARIS, Feb. 9.—Forty-four persons died in Marseilles yesterday of cholera disease. Nine of the cases were suspiciously like Asiatic cholera. The physicians appointed to make special investigation of the disease have been unable so far to make a satisfactory diagnosis. Microscopic examination has failed to reveal the presence of comma bacilli. Some of the physicians are inclined to the belief that the disease is intestinal influenza. The disease has been confined to the filthiest districts, where the sanitation is in a deplorable condition.

The Temps says that the epidemic in Marseilles has aroused the gravest fears among the health authorities in this city.

A special correspondent of The Liberte telegraphs from Marseilles that, upon the advice of Dr. Toinot, sent by the sanitary council to observe the epidemic, the board of health has adopted stringent measures to prevent the spread of the epidemic.

Yesterday a Sister of Charity died a few hours after she was stricken with the disease.

The Liberte correspondent believes that the opening of the streets for the construction of the new sewers caused the epidemic.

Charged with Robbery.

INDIANAPOLIS, Feb. 9.—John T. Woodward was arrested yesterday charged with the robbery of Horace Scott, a millionaire railroad stock owner, of money and checks aggregating \$1,500. The checks were found upon Woodward, who said that Scott got into a poker game and lost a large sum of money and that he let him have the money represented by the checks. Some of them were made payable to Woodward, and others were payable to bearer, and all drawn upon a Louisville bank. Scott says that he was robbed at the Bates House.

Quelling an Insurrection.

BUENOS AYRES, Feb. 9.—The government troops sent to the province of Santa Fe to quell the insurrection of the agriculturists against the wheat tax, succeeded in capturing 200 of the rebels who were conducted as prisoners to Santa Fe, the capital. The governor of the province delivered an address reminding them of the folly of their resistance to the lawful authorities. He then ordered their liberation. The wheat tax is being generally resisted by the agricultural colonies throughout Argentina.

Building Association's Loss.

INDIANAPOLIS, Feb. 9.—The failure of August Smith, merchant tailor, has produced complications that will result in sending the Concordia Building and Loan association to the wall. Smith was the treasurer of the association and made it a preferred creditor for the amount of funds in his hands. It now transpires that the association's affairs are in such shape that the money will be applied to Smith's debts for goods and the association will lose it.

Town Conflict.

YORKTOWN, Ind., Feb. 9.—A town conflict is imminent, due to the efforts of the Western Improvement company to secure the removal of the Yorktown depot of the Big Four railway to West Muncie, one mile east of its present site. Similar plans are being formulated looking to the removal of the postoffice to the same place.

The City Wins.

MARTINSVILLE, Ind., Feb. 9.—The proposition yesterday as to whether or not the city should put in water works or allow a private corporation to put in a system, was carried four to one in favor of the city owning its own plant.

ECONOMY AND DEMOCRACY.

Edward Atkinson, of Boston, who occupies a place in the front rank of statisticians, has recently published in the Boston Herald "a plain statement of facts" with regard to the finances of the United States which is of interest to every citizen, says the Memphis Appeal-Avalanche. This statement contains, among other things, a table which shows the expenditure per capita each year from 1865 up to date. The prominent fact which stares out of this table is, that national expenditure per capita reached low water-mark under a Democratic administration. The average expenditures per capita annually under President Harrison have been \$5.16, while under President Cleveland they were only \$4.43.

The most plausible defense of this increase under Mr. Harrison, adds the Appeal-Avalanche, would at first blush seem to be, that the growth of the country, and its population, necessarily entailed an increase in the cost of running the government; but Mr. Atkinson's tables show the fallacy of such an inference. The contrary has been the case.

In 1865, our expenditures per capita were \$37.27; in 1866, they were \$14.63; in 1868, they were \$10, and, from that time to 1879, they averaged \$6.77. Expenditures were to the individual more during President Hayes' administration than since President Arthur's; more during Arthur's than Cleveland's, and less under Cleveland than under Harrison. Not only were the expenditures per capita less under Cleveland than under any President during the war, but they were even less in the aggregate. The general tendency in recent years has been to cut down the per capita; but when Mr. Harrison became President the tendency was changed, the expenditures per capita not only surpassed those of the Arthur administration, but very nearly equaled those of the Hayes regime. Under Mr. Cleveland's second administration we expect to see the expenditures reduced even below those of the first administration. Democracy means economy, as the "plain statement" of one of the ablest statisticians in the country clearly shows.

THERE are fifteen candidates for Assessor, five for County Clerk, three for County Judge and two for County Superintendent in Bourbon County, and the election is over a year off. They must believe up that way that the early bird gets the worm.

MR. CLARKSON is not pleased at all with the appointment of Judge Howell E. Jackson to be Associate Justice of the Supreme Court. He thinks President Harrison has dealt his party a severe blow. Mr. Harrison might retaliate by charging that Mr. Clarkson dealt the G. O. P. a severer blow last fall by his lukewarm support of its National ticket.

It is again intimated very broadly that the Governor and Secretary of State have discovered something of a sensational character in the accounts between the Mason & Ford Company and the State. If the discovery affects the company's business as lessees of the penitentiary, it is the duty of the Governor to make it known at once, no matter whom it hurts. The people want the facts in regard to the penitentiary muddle. Out with them.

"Tibah Knird." or From Bondage to Freedom.

Dr. Harrison, of Vincennes, Ind., will lecture at the court house Saturday night upon the above subject. The Banner of Gold, Chicago, Ill., says of Dr. Harrison: "The Hon. Jno. H. Harrison, of Vincennes, Ind., a Keeley graduate and one of the ablest of the many able men in that State, is to deliver a series of lectures in Kentucky on the Keeley cure. He is a strong, logical reasoner, a quick, ready speaker and a genial, pleasant gentleman who will make friends for the cause of practical temperance wherever he goes. We congratulate the people of Kentucky on their opportunity to enjoy Mr. Harrison's eloquence." Admission free. No collection.

Union Defenders' Day.

The M. C. Hutchins Camp No. 2, S. of V., will celebrate Union Defenders' Day by having a special sermon preached to them by Rev. D. P. Holt, of the M. E. Church. The Camp will attend in a body Sunday morning. The church will be decorated for the occasion. The public is invited to attend these services.

WHY THE SEA IS SALT

IT RECEIVES MINERAL SALT FROM LAND AND LOSES NONE.

The Process of Evaporation Releases Water from the Oceans, but the Salt Remains. Therefore the Sea Is Continually Growing More Salty.

Why is sea water salt? is a question that has been regarded as a mystery and has given rise to some curious speculations, but a little consideration on the subject must, I think, satisfy us all that it would be very wonderful, quite incomprehensible, if the waters of the ocean were otherwise than salt as they are.

The following explanation was first suggested to myself many years ago when receiving my first lessons in practical chemical analysis. The problem then to be solved was the separation of the bases dissolved in water by precipitating them one by one in a solid condition, filtering away the water from the first, then from this filtrate precipitating the second, and so on until all were separated or accounted for.

But in doing this there was one base that was always left to the last on account of the difficulty of combining it with any acid that would form a solid compound—a difficulty so great that its presence was determined by a different method. This base is soda, the predominating base of sea salt, where it is combined with hydrochloric acid. Not only is soda the most soluble of all the mineral bases, but the mineral acid with which it is combined forms a remarkably soluble series of salts—the chlorides. Thus the primary fact concerning the salinity of sea water is that it has selected from among the stable chemical elements the two which form the most soluble compounds. Among the earthy bases is one which is exceptionally soluble—that is, magnesia—and this stands next to soda in its abundance in sea water.

Modern research has shown that the ocean contains in solution nearly every element that exists upon the earth, and that these elements exist in the water in proportions nearly corresponding to the mean solubility of their various compounds. Thus gold and silver and most of the other heavy metals exist there. Sonnenstadt found about fourteen grains of gold to the ton of seawater, or a dollar's worth in less than two tons. As the ocean covers all the lower valleys of the earth, it receives all the drainage from the whole of the exposed land. This drainage is the rainwater that has fallen upon this exposed surface, has flowed down its superficial slopes or has sunk into porous land and descended underground. In either case the water must dissolve and carry with it any soluble matter that it meets, the quantity of solid matter which is thus appropriated being proportionate to its solubility and the extent of its exposure to the solvent. Rain when it falls upon the earth is distilled water, nearly pure (its small impurities being what it obtains from the air), but river water when it reaches the ocean contains measurable quantities of dissolved mineral and vegetable matter. These small contributions are ever pouring in and ever accumulating. This continual addition of dissolved mineral salts without any corresponding abstraction by evaporation has been going on ever since the surface of the earth consisted of land and water.

An examination of the composition of other bodies of water which, like the ocean, receive rivers and rivulets and have no other outlet than that afforded by evaporation, confirms this view. All of these are more or less saline, many of them more so than the ocean itself. On the great tableland of Asia, "the roof of the world," there is a multitude of small lakes which receive the waters of rivers and rivulets of that region and have no outlet to the ocean. On a map they appear like bags, with a string attached, the bag being the lake and the string the river. All these lakes are saline, many of them excessively so, simply because they are ever receiving river water of slight salinity and ever giving off vapor which has no salinity at all. There is no wash through these lakes, as in the great American lakes or those of Constance, Geneva, etc.

The sea of Aral and the Caspian are lakes without any other outlet than evaporation, and they are saline accordingly. The Dead sea, which receives the Jordan at one end and a multitude of minor rivers and rivulets at the other end and sides, is a noted example of extreme salinity. It is, as everybody knows, a sea or lake of brine. The total area of land draining into the great ocean does not exceed one-fourth of its own area, while the Dead sea receives the drainage and soluble matter of an area above twenty times greater than its own, and thus it fulfills the demand of the above stated theory by having far greater salinity than has the great ocean.

According to this view the salinity of the ocean must be steadily though very slowly increasing, and there must be slowly proceeding a corresponding adaptation of evolution among the inhabitants, both animal and vegetable. The study of this subject and the effect which the increasing salinity of the past must have had upon the progressive modifications of organic life displayed by fossils is, I think, worthy of more attention than it has hitherto received from paleontologists.—W. The Inauguration.

The road to Washington offering the greatest inducements in the way of scenery, historic interest and train service is the Chesapeake and Ohio Railway, which passes through the battlefields of Virginia and West Virginia and the most picturesque regions of America. The F. F. V. is the only dining car train. All through trains lighted with electricity and heated with steam. For lowest excursion rates and complete information apply to nearest ticket agent, or address C. B. Ryan, Assistant General Passenger Agent, Cincinnati, O.

Death of William Ellis.

William Ellis, an old and esteemed farmer of Brown County, died night before last at his home a few miles east of Aberdeen. His death was caused by a severe cold from which he had been suffering only a few days.

Deceased was sixty-eight years of age, and leaves a family consisting of his wife and seven children—three sons and four daughters. His wife is a sister of Mr. William Riggs, of Aberdeen.

The funeral will take place to-morrow at 10 a. m., after which the remains will be interred in the family burying ground on the farm of the deceased. The Masonic lodge at Aberdeen, of which order deceased was a member, will have charge of the funeral services.

SHELBY AND BLACKBURN.

The One Will be Collector and the Other U. S. Marshal—That's the Latest.

A special from Washington City, February 7th, to the Commercial Gazette says: "Colonel John Hopkins, of Catlettsburg, and George Cassell, of Louisville, went home to-night. Each wanted to be the next U. S. Marshal of Kentucky. Neither will be. Why? Because Messrs. Cleveland, Carlisle, Breckinridge and Blackburn have declared otherwise. "When Mr. Cleveland 'turned down,' as it were, James Blackburn in 1884 it was given out that the latter had written a secession sort of letter to a sweetheart in Kentucky which was so lurid in its expressions of rebel sympathy that when President Cleveland saw it he positively refused to name him for the Lexington Collectorship.

"But times have changed now, and Mr. Cleveland has, it is given out on good authority, forgiven the indiscretion of young James Blackburn of thirty years ago and will wink favorably at his claims for the important office of U. S. Marshal for Kentucky when the new U. Senator-elect, Wm. Lindsay, and brother Joe C. S. Blackburn ask his appointment.

"Mr. James Blackburn is now in Washington. He came here a few days ago to insist upon being made Collector of Internal Revenue of the Lexington district, but encountered an unexpected obstacle in Mr. W. C. P. Breckinridge, who represents that district in Congress. Mr. Breckinridge preferred a candidate who is the father of his law partner, Thomas Shelby. Mr. Breckinridge is accredited with having made many a good speech for Cleveland during the campaign, and nobody more fully appreciated this fact than the Blackburns. They, accordingly, changed fronts, and, through the good graces of Mr. Carlisle, will, it is stated upon undoubted authority, have the satisfaction of knowing that ex-Secretary of the State of Kentucky, James Blackburn, will be its next U. S. Marshal.

"James Blackburn might once have been of Ku-Klux kind, but it 'doesn't go now' in these days of progressive Democracy," observed one of his defeated and homeward-bound opponents. The whole matter is cut and dried. Senator Blackburn is placated, and Mr. Breckinridge is satisfied. Mr. Caruth will control the patronage in the Louisville district, and under present agreements, and understandings and promises all elements in the Blue Grass appear unified as against the Wattersonian wing, which steadfastly opposed Cleveland from start to finish."

OUR STAND TOWARD CANADA.
Member Charlton Gives It to His Col-
league Red Hot.

OTTAWA, Feb. 9.—The probable policy of President-elect Cleveland's administration and relations between Canada and the United States formed the subject of a stormy debate in the house of commons Tuesday. John Charlton, a prominent Liberal member, charged the administration with misleading the people of the country by telling them that the government of the United States had refused to consent to any unfair measures of commercial reciprocity with Canada. The miserable attempt of members of the crown, he said, to make capital out of the late general elections by misrepresenting what had taken place at a conference held at Washington two years ago, had forced the American government to deny those statements.

This scandalous conduct had produced in political circles in Washington a wholesome contempt for such pettifogging statesmen and had brought discredit upon the government of the Dominion. While the government at Washington had no love for the party in power in this country he was glad to be able to say that during the recent visits to the American capital, where he met many prominent politicians of both political parties, he found the people of Canada stood high in the estimation of American statesmen.

He mentioned Hon. J. G. Carlisle as being well disposed towards granting reciprocity toward Canada and also the Hon. J. C. Springer. Yet in the face of these sentiments expressed by some of the most prominent members of the ruling party in the United States, the government of Canada have the criminal audacity to tell their people that they can not obtain any measure of free commercial intercourse with the American nation.

ELECTING A PRESIDENT.

Both Houses of Congress Canvass the Presidential Vote.

WASHINGTON, Feb. 9.—The morning hour in the senate yesterday was spent for the most part in the consideration and passage of bills on the calendar, and considerable progress was made in that direction. At 1 o'clock the senators, headed by Vice President Morton and accompanied by some of its principal officers, proceeded to the hall of the house of representatives and there took part in the ceremony of counting the votes for presidential electors. Afterwards the railroad automatic car coupler bill was taken up and debated until the hour of adjournment, without any definite action being taken.

The event in the house was, of course, the counting of the electoral votes, and this passed off without any incident of importance. Grover Cleveland was declared to be the national selection of the people for the office of president, and Adlai Stevenson for the office of vice president of the United States. The legislative appropriation bill consumed the remainder of the day, but no result was reached.

WESTERN WHOLESALE.

Those of the Groceries Persuasion Going Into a Combine.

ST. LOUIS, Feb. 9.—A western association of wholesale grocers is one of the combinations expected to develop in the near future.

The matter has been thoroughly canvassed and envoys have been sent to all the leading Missouri and Mississippi river points to sound the wholesale firms on the subject. The results have been so favorable that a state association, which was the first idea, has been given up in favor of a western association, which shall include Kansas and other points.

The main purpose of the proposed organization is to put in operation what is known as the equality plan. This means that each wholesale dealer shall sell and deliver goods at points tributary to him at a fixed price, based upon a combination with manufacturers.

SINGING WAR SONGS.

Hostile Sioux Indians Preparing for the Coming Outbreak.

PINE RIDGE AGENCY, S. D., Feb. 9.—Reports come to the agency that strolling bands of unruly Sioux are making preparations for a racket of some kind. The police are watching their camp. Indians are making medicine and singing war songs. The hostiles number 200 braves. They are hemmed in by a cordon of well armed police.

Captain Swords, chief justice of the Pine Ridge Indians, who is a full-blooded Sioux, says Dr. Eastman, Elaine Goodale's husband, is an alarmist. He says he himself is not in sympathy with the hostiles, and that Eastman is in a measure responsible for much of the Indians' dissatisfaction.

The Edith's Crew Saved.

HALIFAX, N. S., Feb. 9.—The crew of the brig Edith, ashore near Lawrence town, has been rescued after much difficulty in an exhausted condition. They were hauled ashore on a rope through icy waters. The vessel is a complete wreck. Lighters have gone to try and save some of her cargo.

Frozen Almost to Death.

CLARKSVILLE, Tenn., Feb. 9.—Henry Tamuth, a stranger, was discovered lying in a barn frozen stiff and nearly dead. He had on few articles of clothing, and was without shoes. When able to speak he stated that his brothers were railroad men living at Louisville and St. Louis.

General Bearegard Improving.

NEW ORLEANS, Feb. 9.—General Bearegard, who was reported very ill last night, is in no immediate danger. He is suffering from aggravated heart disease, brought on by excessive smoking. The doctors consulted are hopeful of his recovery, but the heart disease will be a constant menace.

Saved by Cold Weather.

WHEELING, Feb. 9.—The Ohio river has reached thirty-four feet three inches at this point and is now stationary. The cold snap saved the city from a disastrous flood experience. Considerable damage has been done, however, as a large number of cellars have been flooded on the island in South Wheeling.

Her Point of View.
A charming lady of the old school, who is a member of one of the historical families of Massachusetts, says that she never goes by a statue of her most distinguished kinsman without wishing it did not stand there in the sun and in the storms.

"Other people like statues," she says, "but I do not. I don't like to see my cousin rained on, and I always feel it when the snow falls."—Boston Transcript.

Whole Block Burned.

WELLS, Nev., Feb. 9.—A destructive fire occurred here yesterday afternoon. The Bullshead hotel, a new structure built at a cost of \$30,000; Botts' general merchandise store, the largest concern of the kind in western Nevada, and a whole block of buildings are a mass of ruins. The loss is about \$75,000, and will probably exceed that amount.

Fire in a Tenement House.

NEW YORK, Feb. 9.—Six persons were partially suffocated by smoke during a fire last night in the tenement at 2143 Third avenue. They were rescued in an unconscious condition by the firemen and taken to a hospital. All will recover. The damage to the building is estimated at \$5,000.

Shot His Sweetheart.

BROOKLYN, Feb. 9.—John McCaffrey, a young man twenty years old, and his sweetheart, Sarah Duffy, nineteen years of age, met yesterday evening and engaged in a lovers' quarrel. McCaffrey finally asked her to marry him. Upon her refusal he drew a revolver and fired at her. The girl is mortally wounded. McCaffrey fled, and it is believed he has committed suicide.

Carpet Store Burned.

LOGANSPORT, Ind., Feb. 9.—The dry goods and carpet establishment of P. W. Moore, of this city, burned at 6 o'clock yesterday morning, entailing a loss of \$30,000, on which there is \$25,000 insurance. The fire is supposed to have originated from the incandescent electric lights in the show window.

Building Collapsed.

YORKTOWN, Ind., Feb. 9.—The large warehouse belonging to the Patterson glass works collapsed under the weight of ice and sleet on the roof. No one was injured. Considerable damage was done to stock.

Clothing Damaged.

SOUTH BEND, Ind., Feb. 9.—A broken water pipe caused \$15,000 to \$20,000 damage to the stock in Meyer Livingston & Sons' clothing store Tuesday night. The thermometer marked 8 degrees below at the time.

No Cigarettes in Pennsylvania.

PITTSBURG, Feb. 9.—The house at Harrisburg Tuesday, by a vote of 150 to 18, passed the bill to prohibit the manufacture and sale of cigarettes within this commonwealth. The bill now goes to the senate.

WORK FOR US

a few days, and you will be startled at the unexpected success that will reward your efforts. We positively have the best business to offer an agent that can be found on the face of this earth. \$45.00 profit on \$75.00 worth of business is being easily and honorably made by and paid to hundreds of men, women, boys, and girls in our employ. You can make money faster at work for us than you have any idea of. The business is so easy to learn, and instructions so simple and plain, that all succeed from the start. Those who take hold of the business reap the advantage that arises from the sound reputation of one of the oldest, most successful, and largest publishing houses in America. Secure for yourself the profits that the business so readily and handsomely yields. All beginners succeed grandly, and more than realize their greatest expectations. Those who try it find exactly as we tell them. There is plenty of room for a few more workers, and we urge them to begin at once. If you are already employed, but have a few spare moments, and wish to use them to advantage, then write us at once (for this is your grand opportunity), and receive full particulars by return mail. Address, TRUE & CO., Box No. 400, Augusta, Me.

POWER & REYNOLDS.

Pansies for thoughts; I've thought you
My Valentine, so sweet and true.
Messengers of Love.
Kiss me, sweetheart,
The Spring is here.
And Love is Lord
Of you and me.
Love Souvenirs.
Gems of Love.
If for me your love is dead,
Send back to me this bow of red.
If for me your heart is true,
Return to me this bow of blue.
If another's love you be,
Send this yellow bow to me.
If with me you will elope,
Return this bow of heliotrope.
